

# Stories of Redstone

## Christ at work in our midst

### *Scripture and Sneakers*

Once a month, fifty children from Cox-Donahay Elementary hop on a bus and come to Fort Burd Presbyterian in Brownsville to learn about Jesus through Bible stories, memory verses, games and songs. The children also bring their change to help children in other parts of the world.

Along with their partners in the Brownsville Area Ministerium Association, Fort Burd serves children from kindergarten through eighth grade in "Bible Release Time."

Fort Burd also cares for the children by gathering school supplies, which are an expense that many families cannot afford. Do you remember the joy of opening a fresh box of crayons or opening a new notebook? Fort Burd helps

to ensure that even children from families with limited means can experience that joy!

But, it is not only during the school year that children need love and support. In June, the congregation welcomed 55 youth and teens to the church to be measured for sneakers. Mission chair Eadi Zetty then shopped for a pair specially selected for each and every child. The children were welcomed into the church with healthy snacks, friendly faces and the love of Christ.

Through Bible Release Time, School Supplies and Snacks and Sneakers, Fort Burd is showing children that they are loved and cared for, as

*Communicate the Word...Carry on the Work...Change the World  
Together!*
