

Stories of Redstone

Christ at work in our midst

Journey to the Holy Land in Israel/Jordan

Twenty pilgrims flew to Israel on October 18th to visit the land of the Bible. With Brian Kvasnica of Jerusalem Biblical Studies Society as their guide, they spent 11 days hiking, learning, praying, and singing through sites such as the Negev, Beersheba, and the wilderness of Zin before crossing the border into Jordan for a few days.

The Western Wall in Jerusalem

In Jordan, the group experienced Petra (some on foot, some on horseback, some on camels), the citadel in Amman, Jerash, and Mt. Nebo (to name a few.) Then it was time to cross back into Israel to visit Jericho, Jerusalem, Masada, Nazareth, Galilee, and many places in between! The group arrived home safe & sound on October 30th.

Words cannot fully describe this journey, but Rev. Niki Brodeur at First Presbyterian Church – Greensburg had this to say:

“To see what Moses saw from Mt. Nebo, to put my feet into the same river in which my Lord was baptized, to place my hand upon the Western Wall where so many have lifted prayers to God...there is nothing else that could have impacted my faith and ministry the way that this pilgrimage has done.”

Communicate the Word...Carry on the Work...Change the World

Together!
